

SOAP DISPENSER USER MANUAL

Thank you for purchasing this manual soap dispenser, which is made of type 304 stainless steel. It has novel design, special appearance, and a built-in button. It is an ideal choice for bathroom, restroom, kitchen and other public places.

Features:

- ※ With stainless steel cover, it has strong corrosiveness resistance. It is suitable for each kind of soap like body shower, shampoo, dishwashing soap, etc.
- ※ With unique theft-proof equipment, it can prevent from being stolen and destroyed.

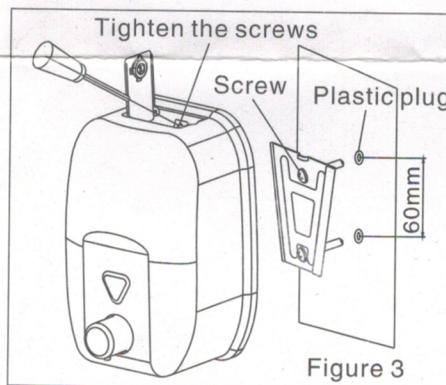

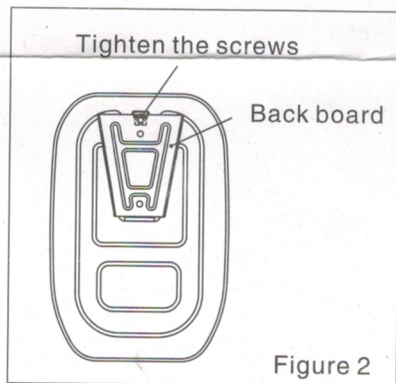

Parts:

Installation:

1. Use the key attached, follow the instruction at the top, and open the cover.
2. Use the screw driver to loose the screws inside the dispenser, and remove the hanging board.
3. As shown in Figure 2, drill 2 holes of 6mm, and fix the hanging board with the plugs and the screws attached.
4. Fit the dispenser to the hanging board, and screw down the screws inside the dispenser.

Note: Must mount the screw and press the rubber ring tightly, otherwise, inside liquid will seep through this rubber ring.

Application:

1. Follow the instruction; use the key open the cover at the top, fill in the soap liquid (the volume should not be over the head of the screw inside), and then close and lock the cover.
2. Use the hand to press the button, the dispenser will dispense soap liquid from the outlet.

Notes:

1. Prevent anything from blocking the soap outlet
2. Keep the soap clean without any impurities
3. DO NOT splash the dispenser directly
4. DO NOT use any kind of thinner and chemical liquid which may damage the surface to clean the dispenser.
